

Hello All

Well, in my part of the world its time to say " spring has sprung, the grass is rizz, I wonder where the birdies is". Yes in deed, today is a most wonderful sunny day in Southern Ontario - Canada, not a cloud to be found anywhere in the skies and temperatures of 14 C. Winter truly is over and we are fast approaching the longest day of our year. To all of you in the northern hemisphere I wish you all an enjoyable spring. To those in the southern hemisphere, I'm guessin' its your fall time with winters a comin'. I should be so lucky to have your kind of winters.

in any event I really hate to impose on your wonderful spring and fall, BUT May 1 is just around the corner and your Interchange wishes for 2001 / 2002 need to sent to IO. So, if you are doing nothing major this weekend, it certainly would be a good time to get the forms into IO. As we have not received any matching Forms / Sheets from IO, I have taken it upon my self to alter the forms from last year and issue them with this email. I trust that you have all been in contact with your LICs regarding their IC requests and all is in order to be sent .

The attachments are as follows:

1. International Interchange Matching Data Sheet - IICMDS 01  
Hoping that this sheet is fairly straight forward. It should contain a summary of all the requests you receive from your LICs. If you have typed the requests on another sheet of paper, save some time and send that sheet along. I am hoping that you will be happy with the matches that will be sent to you by June 25 and you will not need Page 3. If you do need Page 3 please get it back to IO by July 25.
2. Local Interchange Matching Data Sheet - LICMDS 01  
Well, save this sheet for next year. It is a sheet that your LICs may have found useful when submitting their IC request to you the NIC. The due date for this sheet was yesterday?&%@#
3. Match Box Information Sheet - Airports  
Same sheet as last year, FYI ( for your information )
4. CISV Regions ( Nations Possible for 2001 / 2002 )  
This is a new listing of Regions just hot off the press. The separation of the countries into the 9 different regions is something that the IIC wanted to present to this years IBM. After the IBM the list may change for next year but at this time I thought I would try it out and see how you like it.  
If your LICs have used designations from some of the other regional list floating around, NOT TO WORRY, just use them as is, when the matching is done in May it will sort itself out.

I hate to end this email on a sad note but there really is not good time to present the following. For those of you that may know Gill Benson from the International Leadership Training Committee our thoughts are with her as her mother passed away last week.

Wishing you health and happiness

Yours in CISV  
Heinz Boehnke \_ IIC Chair
